

Who moved my cheese?

-Spencer Johnson

You asked and we've listened.

We've put on our running shoes and gone out in search of new solutions to adapt to the changing environment. We've moved with the cheese and are scavenging in the wonders of the maze to seek out differentiating features to streamline and to make business processing more efficient and effective.

As promised, our popular iSPOS and POS series received a serious bump in CPU speed to cater for the increasingly demanding environment. Offering top of the line performance, the newly revamped iSPOS and POS series are now fitted with 2nd Generation Intel Core i5 and i7 CPUs respectively to provide for the smart solution to modern business challenges.

Fast and responsive, with expandable memory of up to 8GB, our upgraded iSPOS and POS series are exceeding performance expectations every step of the way. Multitasking is now smarter with effortless switching between applications with improved performance and power management.

With optional dual display, inbuilt printer, card reader and kiosk applications, having a durable, reliable and versatile solution just got even better.

Retail - Hospitality - Industrial

To trial the benefits of these upgraded models, contact your account manager to request for an evaluation unit.

Discontinuing products

The following products will be phased out from June 2012 as we concentrate on the new models:

iSPOS 650 and iSPOS 855
POS 8 and POS 12

We will continue to provide technical and hardware support and warranty fulfilment for these products.

Please also note that card reader option for all new units will be fitted with triple track card reader only. We will no longer be offering dual track card reader to keep more efficient inventory level.

Reminder

RMA FORMS

For all service units to be sent back to Senor, please follow our procedures to ensure prompt service.

Please complete the RMA form from our website (www.senortech.com.au/forms.php) and email the completed form to service@senortech.com.au or fax to (07) 3275 5800. An identifying RMA number will be forwarded to you for tracking and reference purposes. Once you receive this please securely pack the unit into the Senor box, attach the RMA form with the RMA number provided and address the box to:

Senor Tech Pty Ltd
65-67 Weaver Street
Coopers Plains QLD 4108
Phone - 07 3275 5888
RMA Number:

This will allow us to identify the unit being returned and ensure that service can commence immediately upon receipt.

Recently we have received many units sent back for servicing without a reference number. Please note there may be a delay in getting these units serviced and returned to the sender as they firstly need to be correctly identified.

End of Financial Year

End of financial year is typically the busiest time of the year for Australian businesses with many companies reviewing their purchasing and equipment needs as such to account for business expenses in the current financial year.

We are now reviewing stock level and project needs to prepare for this time and we urge you to do the same to avoid disappointment or lengthy delay to receiving your orders during this busy period.

Easter break

Please be advised that our office will be closed during the Easter period from Friday, 6th April to Monday, 9th April. For urgent technical support, please contact our office on 07 3275 5888 and our dedicated personnel will attend to your queries.

COMPUTEX Taipei

The annual Computex Taipei expo will be held this year from the 4th-9th June 2012 at the TWTC Nangang Exhibition Hall. Senor Tech Taiwan will be exhibiting at this year's event to showcase our range of POS systems that cater for a diverse range of applications. If you require further information regarding this event, please contact our office at marketing@senortech.com.au.
